

SDS-plus compatible hammer drill bit

OF EXPERIENCE
15 YEARS
OF EXPERIENCE

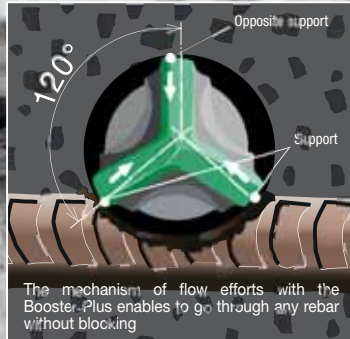

SPECIAL REINFORCED
CONCRETE

NEW GENERATION
booster
PLUS

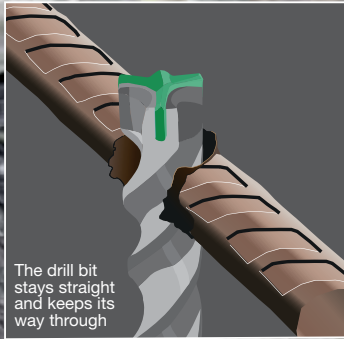

DIAGER[®]

FOR 15 YEARS THE BOOSTER MAKES THE DIFFERENCE

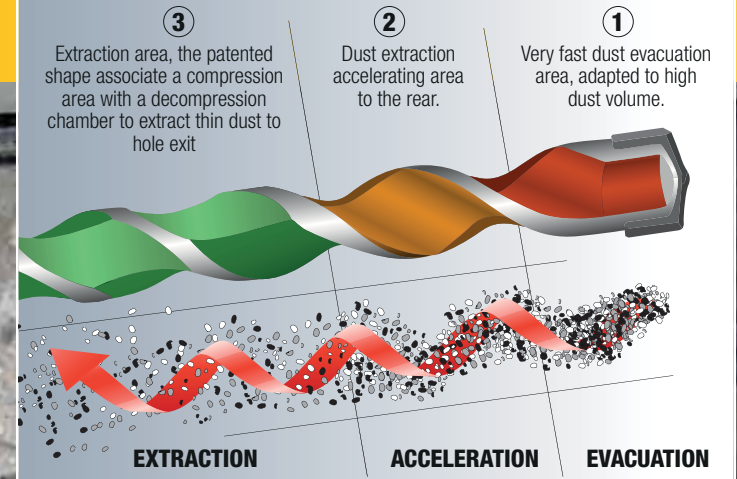

The mechanism of flow efforts with the Booster Plus enables to go through any rebar without blocking

NEW GENERATION
booster PLUS

New TRI-ZONE flute

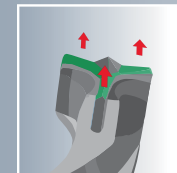

3 cutters technology

RESISTANCE TO OVERHEATING

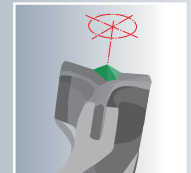

The solid monobloc carbide tip, is inserted and brassed with copper, resistant to over 1000°C temperature raise

HAMMERING EFFECT

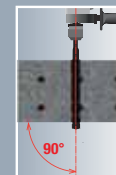

3 135° edges, combine the most efficient drilling without cracking the concrete around

PRECISION

The self centering tip design, drives the bit straight

TRAJECTORY CONTROL

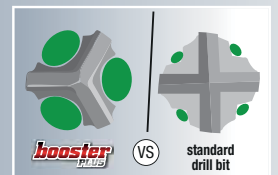

PERFECT HOLE, PERFECT ANCHORING

Answers to all world technical standards agreements

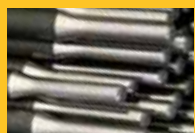

BETTER DUST REMOVAL CAPACITIES

Its design offers the largest dust removal on its market

SDS-PLUS COMPATIBLE

PREMIUM STEEL AND CARBIDE FROM EUROPE

The premium standards for steels and carbide, combined with our thermal treatment under controlled atmosphere, guaranty the best striking force restitution for the booster.

PGM APPROVED

PGM marked drill bits certifies accuracy of tolerances of the drill bit's geometry, guarantees also the hole calibration and a safe anchoring.

DRILL FASTER AND LONGER UP TO 40 METERS DRILLED*

*internal test conducted on computerised testing bench, new booster generation diam 8mm, in B50 concrete, with SKG hammer machining

PACKAGINGS

- TUBE OF 6, 12, 25
- POUCH
- METAL SET
- PLASTIC SET
- INDIVIDUAL PACK

RANGE

- Lg de 110 to 610 mm
- Ø de 5 à 20 mm

all products 3 cutters technology

Bit with stop - compatible SDS-plus - ref.108

Windows & Frame drill bit - compatible SDS-plus - ref.102

Special reinforced concrete **BE MAX** compatible SDS-max - ref.166R

Special reinforced concrete **booster TOP** compatible SDS-top - ref.131

Special reinforced concrete **booster PLUS** compatible SDS-plus - ref.113
