# Products

The Core Matter of our Supplies

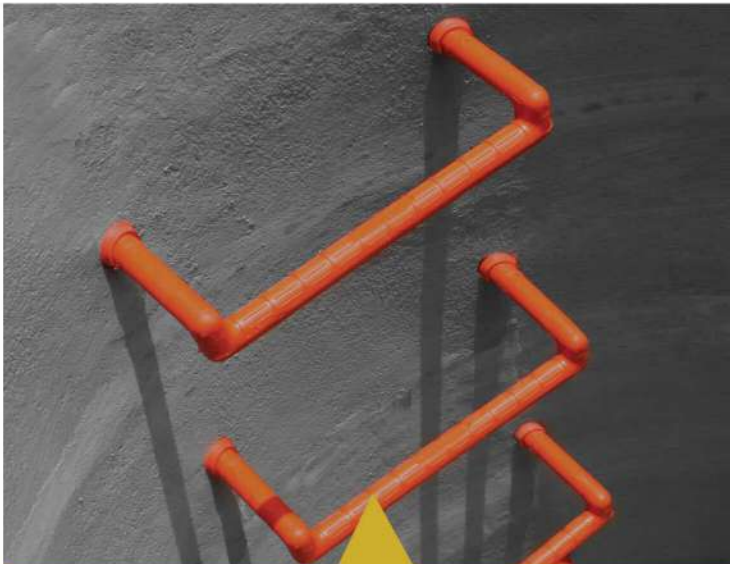

## Plastic Welding

Plastic Welding Machinery from the World's best manufacturer of Plastic Fabrication Tools – Leister. A wide range of tools to choose from. Supplied with an after-sale assurance of spare-parts availability and repair services.

## Pipe Welding System

Pipe welding systems offered from the best in technology and price. Various options of pipe welding machines offered including Butt Fusion Welding, Electrofusion Welding and Socket Fusion Welding. We offer service center facilities and support to help you with your pipe welding requirements.

## Manhole Steps

Superior Quality Manhole Steps, Ergonomically Designed, Chemically Resistant, Designed for Long Life. Used in Manholes, Catch Basins, Swimming Pools and any applications which require a permanently fixed Ladder

## Warning Tapes

We offer both Detectable and Non-Detectable Warning Tapes in addition to standard Red and White Caution Tapes. Our Warning Tapes are approved in various projects across Gulf Countries and well-accepted by the industry both technically and commercially.

## Lifting Accessories

Lifting Systems for Concrete Precast industry, with safety at the forefront . We provide accessories to ease the job or installation and transportation of the precast element. From lifting sockets / anchors, recess formers and lifting loops but not limited to.

## Plastic Spacers

Wide range of plastic construction accessories which aids in different stages of construction, from costing / manufacturing to the finishing and storage stage. Our products range from precast plastic accessories to plastic welding rods and not limited to there.

## Diamond Discs & Core Bits

Designed, developed & manufactured to give the best performance with the combination of optimum speed, safety parameters and precision cutting with best service life. Preferred by dedicated cutting and coring (contracting) professionals.

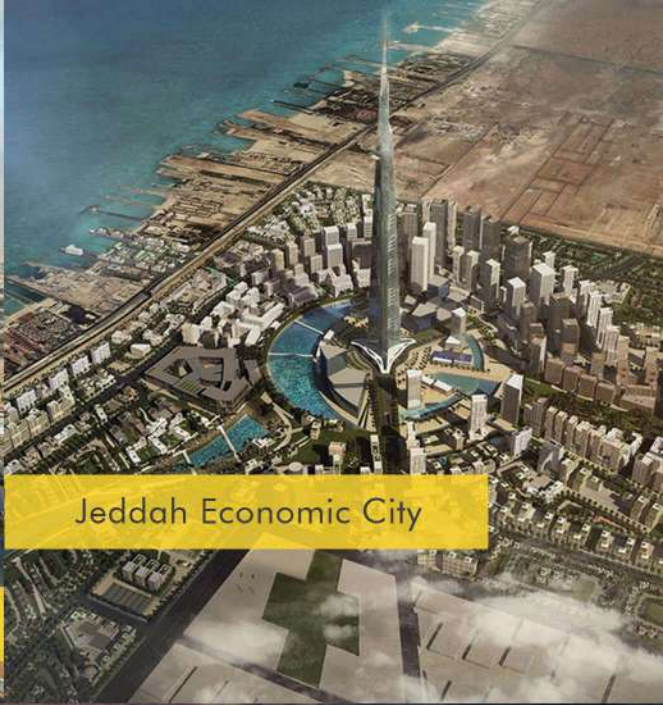

## Drill Bits

State of the Art Drill Bits from France, DIAGER. Drill Bits designed and engineered to generate maximum value for your money and at the same time, provide solutions to any kind of drilling problems.
